IPR CELL

ROLES AND RESPONSIBILITIES

Roles	Responsibilities
<ul style="list-style-type: none">The Entrepreneur Development Cell (EDC) is responsible for fostering entrepreneurship among students and promoting a culture of innovation within the institution. Its key responsibilities include organizing workshops, seminars, and training programs that equip students with essential skills in business planning, marketing, finance, and leadership. The EDC also provides mentorship by connecting students with	<ul style="list-style-type: none">The Intellectual Property Rights (IPR) Cell plays a crucial role in safeguarding and promoting the intellectual assets of an institution. Its primary function is to educate faculty, researchers, and students about the importance of intellectual property and the various forms it can take, including patents, trademarks, copyrights, and trade secrets. The IPR Cell assists in identifying potentially patentable inventions and guides

<p>experienced entrepreneurs and industry experts who can offer guidance and advice.</p> <ul style="list-style-type: none">• Additionally, the cell facilitates access to funding opportunities, such as grants and venture capital, and helps students prepare business proposals and pitches. It may also collaborate with local businesses and incubators to create an ecosystem that supports startup development. By actively promoting entrepreneurial initiatives and providing a structured support system, the EDC empowers students to pursue their business ideas and contribute to economic development.	<p>researchers through the process of filing applications, ensuring compliance with legal requirements.</p> <ul style="list-style-type: none">• Additionally, it facilitates workshops and seminars to raise awareness about IPR issues and strategies for protecting innovations. By fostering a culture of innovation and providing resources for effective IP management, the IPR Cell enhances the institution's reputation and supports the commercialization of research outputs, ultimately contributing to economic growth and technological advancement.
